- upgrading your Oracle EBS to Release 12.2.x
- upgrading your Oracle Database
- using our Oracle Localizations (GoBD)
- relying on our operational and technical Oracle ERP support including hosting services
- Using our technical system support

PDG is an owner-managed, midsize IT consulting firm that has been successful in the market for more than twenty years. Both founding companies have been Oracle Partners since 1992 and 1993 respectively, focusing on Oracle products and technologies.

Companions

Over 70 qualified consultants with more than 500 man years of Oracle experience have accumulated in-depth Oracle implementation know-how. PDG is therefore one of the largest Oracle Platinum Partner with market leading implementation offerings for Oracle ERP Cloud Services and Oracle E-Business Suite.

PDG supported numerous international companies that have an American parent company in meeting the challenge „Rollout to Continental Europe“. As a NetSuite Alliance Partner, PDG supports also NetSuite integrations.

Pioneers

As localization specialists, PDG has been implementing requirements that go beyond the standard functionality provided by Oracle for decades. PDG proves its extensive competence in particular in relation to the area of Oracle Financials solutions. The flexible implementation packages for Oracle Cloud Financials Services developed by PDG are on offer worldwide through the Oracle Cloud Marketplace. Innovative PDG Supply Chain applications are driving the automation and digitization of business processes.
